Turning Ideas Into Reality

Get PAID, Have FUN, and CONTRIBUTE TO THE READINESS OF OUR NATION'S HOMELAND SECURITY

A Team Solutions is seeking individuals interested in serving as Role-Players (disaster victims, mass casualties, anxious citizens, etc.) in support of a National Guard training exercise. This critically important exercise will occur 28 April - 2 May, 2014 at State Preparedness Training Center, Oriskany, NY. Quality Role-Players are essential in adding realism to the scenario by simulating victims of a disaster event and thus enabling the National Guard to test, train and evaluate their life-saving tasks including extraction from a disaster site, victim decontamination, medical triage and treatment.

We are seeking realistic diversity in our Role-Player population in terms of age, gender, ethnicity, and race. As a Role-Player you must be willing to act, have moulage (artificial but lifelike scrapes, burns, cuts, etc...) applied, be rescued from collapsed structures, be decontaminated of hazardous materials, triaged and provided advanced medical treatment. Of course this is all realistically simulated in a safe and controlled environment.

KEY POINTS FOR ROLE PLAYER PARTICIPATION

- All participants will be paid \$15.34 an hour, with additional hours required based on role-player assignment.
- Participants will be required to wear old "Cut-away" clothing, with tight fitting swimming suits underneath, for realistic moulage application and for first responders who may "cut-away" clothing to apply immediate medical aid.
- All participants must be 18 years of age or older.
- All applicants must be available: April 28, 2014 for orientation and training. April 30 - May 2, 2014 for exercise participation. More specific information on times and locations will be provided to selected applicants.
- Go to www.iifdata.com and follow the "Role Player Support Services" link for additional information and to complete the online application.

Thank you for your contribution to the readiness of our Nation's Homeland Security!
